Manufactured by Hridaan Exim

About Us

Allwin Electrical Industries, the parent organization of Hridaan Exim was set up in 1979 as one of the first mechanical, industrial, electrical manufacturing and trading organization of Andhra Pradesh, now Telengana. More than 40 years of expertise in supplying products to continuously growing industry of electrical hardware and automation by managing 20,000 distinct varieties of electrical and electronic goods.

Hridaan Exim is a leading venture set up on the rules of Make in India/independent India. We are significantly into manufacturing and trading of Electrical safety products like Industrial Receptacles, Industrial weather proof Distribution boards, Industrial weather proof Plug and Sockets according to the principles of IEC 309-2 under the brand name SAFEGUARD Electrix(safety first).

Safeguard Electrix has a complete innovative solution (CE certified) for industrial weather proof plugs and sockets setting new standards in safety, reliability and durability. Whether for the improvement of new industrial workplace, construction site maintenance, or in-progress planning, our products are designed for each detail. Our items are strong and substantial to withstand all limits of climate conditions all through the globe.

“Our vision is to lead the Indian made industrial products globally.”
